Proposal

new economy

Workshop

Description

History

a new love economy using pan anarchic disciplines to programme proof of ethics algorithms symbiotic to nature and man in a decentralised, open sourced, autonomous, sovereign and self empowering way that is fair to all, and sentient to all living beings.

We have the basic whitepaper with descriptions and design...now we see it is time to open this discussion for digital cash that interfaces with analog systems. Our vision is to make poverty history.
